

COMPANY PROFILE

DS KOREA (BD) LIMITED
(Sister Concern of Daesung Group, Korea)
Export Oriented Textile Auxiliaries & Garments Printing Chemicals Industry

Greetings of Chairman

How are you?

Thank you for choosing DS KOREA (BD) LIMITED, sister concern of Daesung Group, Republic of Korea.

Our Daesung Group is made up of technical applications who have been studying Dyeing and Printing chemicals for decades. Also we have the company that import and sell raw materials directly and operates as a system that produces materials on its own, making it highly competitive.

With soluble acrylic binders, Binder Pigment Paste, Silicon products, and Dyeing & Washing agents as the main products, we have a wide range of textile and RMG market in the world. We also have business in Cosmetics, Construction, Automobiles, and Paints sector and we are leading the development of technology.

We just not supply product, we support you as business partner.
We study unsolved solutions with efficiencies.
We'll guide you in the most ideal way.

Baek Ho-young
Chairman
DAESUNG GROUP

COMPANY INFORMATION

DS KOREA (BD) LIMITED is a sister concern of **DAESUNG GROUP**, South Korea is located in Narsingdi, Bangladesh.

Our main part **DS KOREA LTD.** is located in Gyeonggi-Do, South Korea, Which was established over 20 years. It's a location of Research and development (R&D), manufacture and sales of Water based Printing, Washing & Dyeing Chemicals, has been committed to the quality on production and sales of various Dyeing, Washing & Printing Chemicals with perfect quality control System and the first-class sales and service center.

About Factory:

Factory location of **DS Korea (BD) Limited** is very attractive & eco-friendly with green surroundings. And is facilitated with easier communication and transportation with all over Bangladesh. We have highly skilled manpower both local and foreign. The factory is being operated and maintained by highly experienced Korean engineers and technicians. All our machineries set-up are brand new Korean made. Also we use high quality Korean raw materials. To ensure quality of packing and to avoid any duplication of our chemicals; we avoid any outsource from local supplier. We manufacture Drum and other packaging materials in our own packing unit. That's why our product remains Korean standard and one of the best in the world, undoubtedly. We have obtained permission from all related government authorities of Korea & Bangladesh. We are very concerned of our worker's safety matter. We have installed all necessary equipment to prevent any kind of fire accident. 'Fire service and Civil Defense' authority of Bangladesh has been satisfied to our fire safety management and we obtained certificate from the authority. Our factory wastage management system is never harmful for the environment. We achieved environmental clearance from Department of Environment, Bangladesh. Finally we feel proud to say that ours is an international standard factory. So we achieved **ISO 9001:2015** certificate, award from UK for our quality management system. We also achieved certificate from **Eco Passport by OEKO-TEX**, Germany & **ZDHC MRS L 2.0** for our products without any restrictions.

BUSINESS HISTORY

Daesung T&C Established Since 2001. Started Chemical business by sales agency contract with Lotte chemicals. In 2019 Daesung Group expanded business by established Chemical industry unit in Bangladesh named **DS KOREA (BD) LTD.**

Also maintaining:

- MCNS polyol agency contract.
- Silicone agent for Korea of WACKER ,Germany.
- Agent of MILLIKEN, USA
- Having MDI supply contract with Kumho Mitsui Chemicals.

Started since 2001, in 20 years, DAESUNG GROUP has been established as a multinational company with having their business in EUROPE, ASIA, USA and all over the world.

Brand Name: "DAESUNG"

Packaging :

- 1kg - 5 kg HDPE Bottle
- 50kg -100 kgs HDPE open headed drum

Delivery : BANGLADESH / KOREA

Origin : Republic of South Korea.

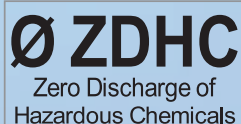

Lead Time : 2~7 Days after confirm the order.

Payment Terms : T/T, L/C

**** Our DAESUNG brand chemical has huge demand all over the world as Garments Printing, Washing & Dyeing auxiliaries.**

OUR PRODUCTS / SALES BY ITEM

- **Textile & Garments Printing Chemicals**
 - Binder
 - Rubber Paste (White/Clear)
 - Discharge Paste (White/Clear)
 - Pigment Paste (White/Clear)
 - Glitter Paste
 - Thickener
 - Fixing Agent
- **Textile Dyeing & Washing Auxiliaries**
 - Pre-Treatment
 - Dyeing
 - Finishing
 - Garments/Denim Washing

PRODUCT OVERVIEW

Item: Silicone Softener

Impart additional softness and smoothness on the surface of fabrics and textile substrates. In addition to improve tear strength and shade enhancements, silicone softeners also ensure silky soft handle, moisture management.

Applicable Fabric : Cotton, Polyester ,Nylon, PU Napping etc.

Feature:

DS soft is a water base hydrophilic silicone softener. It imparts excellent softness and good absorbency on cotton, polyester and blended yarn dyed fabrics and Denim fabrics.

Characteristic:

Can be applied by exhaust method as well as by padding on fabric.

Apart from improving resistance to ozone fading, it confers soft hand feel.

- Improve a wash-and-wear properties and tear up strength up to 30%.
- Excellent soft and elastic hand feel.
- Our Anti-ozone silicone softener gives excellent protection to indigo dyed denim garments against ozone fading

**** Our Silicone Softener is the best in the world. We use best quality raw materials of Wacker - Germany, Milliken - USA and other best raw material suppliers.**

Item : Detergent/Scouring Agent

DS-Clear is balanced blend of eco-friendly solvent and surfactants for multi-purpose scouring and de-oiling for synthetic fiber, synthetic elastomeric fibers and cotton blends.

Feature: Excellent cleansing of persistent grease, wax, mineral oils and heavy impurities.

- Suitable for both batch wise and continuous process.
- Suitable for difficult cleaning of elastomeric fibers, high twisted yarn and knit through excellent penetrating and oil emulsification.
- Stable at high speed machine condition and wide range of pH and temperature.
- Good effective for wool and wool blends giving non-harsh handle and no oil stains after dyeing.

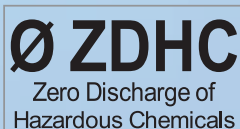

Solubility : Soluble in water in all proportions.

Compatible : Compatible with anionic and non-ionic products. Stable to alkaline and hard water.

Application : DS-Clear can be used in low temperature normally associated with scouring. The dosage varies depending on the type of fabrics, degree of soiling and machines.

**** The amount of Detergent should be increased if hard water is used in washing.**

PRODUCTS OVERVIEW

Item : **Binder**
Uses : Textile printing, Auto Screen, Rotary, Roller, Hand Screen, Piece Screen .
Printing Type : All over print (AOP) etc.
Appearance : Milky white
Coverage : Good
Feature : Hand feeling soft, excellent fastness.
Composition : Excellent soft and elastic binder and thickener etc.
pH Value : 6.5 ~ 7.0
Supply Ability : 30 M.Ton/per Day.
Application : Suitable for platen printings and mechanical printings.

Item : **Water based Printing Paste**
Uses : Textile and garment factory for various printing.
Printing Type : Hand printing / Machine printing, Rotary Printing, Flat bed printing, Table printing, All over print (AOP) etc.
Appearance : Clear white Color
Coverage : Good
Feature : Hand feeling soft, excellent fastness.
pH Value : 6.5 ~ 7.0
Supply Ability : 30 M.Ton/per Day.
Application : Suitable for platen printings and mechanical printings.

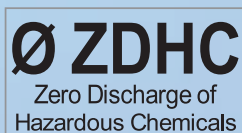

Why we are best for you...

- We provide you world's best quality Printing, Washing & Dyeing Chemicals.
- Our Product price & quality is too attractive to compete in the present competitive Textile & Garments market.
- We are the pioneer Garments printing, washing & Textile Auxiliary manufacturing industry in Bangladesh.
- We have highly experienced Korean technical persons to provide you high quality products and after sales service.
- We don't have any MOQ barrier. We are able to supply the quantity as per your requirement.
- Our lead time for deliver goods is 2~7 working days. (To import from abroad - about 45~90 days needed).
- We provide professional technical services for you.
- We ensure the consistency of our product's quality and also provide warranty on our products.
- You don't need to go abroad to import goods, so you can save time and money.
- Our customers don't have to face port hassles as we deliver the products to customer's warehouses through our own logistics.
- We have our own manufacture of Drum and other packaging unit to ensure the quality and to prevent the duplication of our chemicals.
- We are always beside you for your all kinds of Printing, Dyeing & Washing necessary.
- We always R&D new products according to your requirements and market. We have our own international standard laboratory in same premises.

For further clarification please feel free to contact us.

Email : sales@dskoreabd.com

Many thanks.

LIST OF AUXILIARIES

Particulars	Product	Remarks
Detergent	DS-Clear	Suitable for removing sizing materials and oil from fabrics.
Wetting Agent	DS-WT	Help in wet processing, reduce surface tension and help dyes to penetrate fiber surface.
Sequestering Agent	DS-Clean	Eliminates water hardness & heavy metals like iron & copper etc.
Scouring agent	DS-Scur	Removes soluble and insoluble impurities like oils, waxes, fats, vegetable matter, as well as dirt in fiber.
Enzyme (Bio polish)	DS-BioP	Keep fabric surface clean & smooth and enhances fabric quality by decreasing pilling tendency.
Anti-creasing Agent	DS-CrH	Prevents crease mark on fiber by forming protective coating around fiber.
Peroxide Stabilizer	DS-HPS	Uniforms the bleaching by suppressing rapid decomposition of hydrogen peroxide.
Peroxide Killer/ Neutralizing Agent	DS-NT78	A catalytic enzyme that removes/neutralize the residual hydrogen peroxide from fabric after bleaching to protect oxidation during dyeing.
Oil removing Agent	DS-OR202	Remove grease, wax and various spinning oil agents on fabric and improve its coloring rate and other properties effectively.
Desizing Agent	DS-DE100	Enzyme, Oxidation. Remove the size materials from warp yarn of the woven fabric and improve finishing and dyeing efficacy.
Antifoaming Agent	DS-DF220	Prevents and destroys foam in all water phase treatments of fibers, yarns and fabrics
Leveling Agent	DS-LA315	Fix the dye particles uniformly to get uniform shade. (cotton/polyester)
Buffering Agent	DS-NT20	It Maintain the correct pH for the dye and strengthen dyeing ability.
Soaping Agent	DS-Wash	Removes excess unfixed dye present on the surface of fiber/fabric.
Fixing Agent	DS-Fix	Fix the unfixed dyestuff on fabric. It improves wet color fastness and fabric quality.
Brightener	DS-Bright	Increase brightness of a textile.
Silicone Softener	DSC-2491	Impart excellent inner softness as well as surface of Cotton Fabrics.
Silicone Softener	DSP-2120	Impart excellent inner softness as well as surface of polyester Fabrics.
Nano Silicone	DSKS-Nano	Impart durable softness, crease resistance, excellent body, superior smoothness, and surface levelness.
Silicone Oil	DS-SI 100	Can be used as a fabric softener, lubricant, waterproofing agent, finishing agent, and so on in the textile and garment industry.

****Above is a small list of our auxiliaries for use in dyeing cotton and polyester yarns/fabrics, we also have chemicals for use in acrylic and woolen yarns/fabrics dyeing.**
